

SPELLINGANALYSE&ZO

A Clear and Detailed Picture of Your Child's Spelling Skills

Writing and correct spelling play an increasingly important role today in communication. As adults, children will need good written communication skills in a number of areas, including to write papers and exams in secondary and tertiary education, cover letters for job opportunities, and perhaps in preparation for a career that involves writing and written communication. For these reasons, it is important for primary school children to have a proper foundation in knowing the rules of spelling.

SPELLINGANALYSE&ZO provides a detailed picture of your child's spelling skills, including which spelling rules have been mastered and which rules need further explanation and practice. This information can then be used to create a tutoring program specifically aimed at the areas of improvement identified in the assessment.

Is This Right for My Child?

SPELLING ANALYSES&ZO is suitable for all primary school children in Groups 3-8 who seek to improve their spelling skills. For children in Groups 5-8, the spelling assessment also addresses the spelling rules for verbs.

What Can I Expect?

SPELLINGANALYSES&ZO consists of 2-3 sessions. In each session, the child will

take one spelling assessment which will be conducted by the child's own tutor. The tutor will then receive detailed insight into the specific areas of strength and weakness in your child's spelling knowledge.

What is the Result?

SPELLINGANALYSE&ZO is a spelling assessment which provides an overview of your child's knowledge of the spelling rules. This assessment will provide a clear and detailed picture of your child's strengths and weaknesses in each area of the rules of spelling, including verbs. Based on these results, our tutor can develop a personalized, 1:1 tutoring plan for your child that targets only the specific areas of improvement your child needs in spelling.

What are the Costs?

SPELLINGANALYSE&ZO costs €225, which includes the administration of the spelling assessment, a detailed report regarding your child's level in each of the various spelling rules, and an explanation of the results. This does **not** include the costs of the spelling tutoring, which are charged separately. VAT not charged.

What Can I Do after the Assessment?

You may help your child at home or engage with one of the tutors at LEREN&ZO for spelling assistance. You may also share this information with school and teacher. A transfer meeting with the school can be arranged at the cost of €55 per hour. Follow-up assessments are also available upon request.
